### Hire Dates

One coworker to recognize this month is Alberto Cantillo for 11 years of continuous employment on the 18th. Recently Alberto has been assigned the role of project foreman on the Winchester Regional Airport runway 14-32 rehabilitation. After working several years as a helper, electrician, and "second" foreman on numerous airfield projects, Alberto has displayed the desire, competency, and knowledge to serve in this capacity. So far, with a great attitude, a great crew to work with, and by staying on the project and being diligent, the project has gone very well. Congratulations to Alberto for this longevity milestone and this work assignment.

Francisco Baltazar joined Barnes & Powell this month as a laborer. He too has displayed a great attitude and a willingness to do whatever is necessary for the project to stay on track.

We wish him well in a long and successful career at Barnes & Powell.

#### Upcoming Birthdays:

Denis Matamoros - 2nd  
Phil Myers - 5th  
Chip Barnes - 14th  
Juan Duenas - 18th  
Danny Pollard - 23rd  
Dwight Dublin - 26th  
Kenneth Lee - 26th  
Pablo Serrano - 28th  
Wendy Wall - 28th

### Project Update

Continuing on current projects are:  
11098 - Chip, Luis, and Ole are leading a strong team on days and nights at Georgetown, SC airport.  
Hanor Farms - Larry has priced several small to medium sized projects for this customer, resulting in a fair amount of work.

11155 - Roland steadily moves along on the ALSF cable replacement on Runway 36C in Charlotte.  
11108 - Taylor is overseeing the work at

Syngenta for the boiler replacement project, of which we're the prime contractor for the general trades and an electrical subcontractor on the mechanical portion.

11082 - As mentioned earlier, Alberto has the project tracking along well, with most of the airfield demolition complete and now working on new circuit installation.

NCSU - Carmen continues to pick up work orders with the occasional large telecom installation to keep a handful of guys busy and productive.

11133 - The FAA power lab is moving along nicely. Johnnie and his crew have been extremely busy and the customer is very pleased.

11046 - Just underway at Sampson County airport with the demolition for the parallel taxiway extension.

11076 - Duct bank has been installed under the taxiway turnaround site, now awaiting groundwork by

Barnhill before returning to install fixtures and signs.
